

Order Book Keyboard Entry

- Select the order
- Select the top or bottom order
- Open a revision ticket
If the order is not a simple limit order then the regular order ticket will be displayed.
- Select the next working order

- OR Move the focus between fields of the order ticket
- Revise the order
Only regular limit orders can be revised through this ticket.
- OR Cancel the order ticket
- Pull Order
Pulls the highlighted order(s) in the Order Book.
If an order is currently displayed in the revision ticket it will be pulled.
- OR OR OR Increase or decrease the volume and price fields by the smallest increment
- OR Increase or decrease the volume and price fields by a larger increment
You can also type values into the volume and price fields.
- Make the Order Book window active
If you have more than one Order Book window then pressing F4 repeatedly will cycle through them all.

Open a regular order revision ticket window for the selected order.
